

## Process Analyst (m/w)

As a rapidly growing consultancy start-up with an international scope of activities, our specialisation is the sustainable and consequent improvement of processes in the construction sector. We consult well-known construction companies, owners and engineering agencies in project delivery on the basis of lean construction to optimise all relevant processes with the project teams on-site and to ensure a sustainable added value.

We would be happy if you are interested in Refine and would like to support us as well as our clients as a Process Analyst. Whether as an intern, or by writing your bachelor's or master's thesis, we offer you an appropriate position and scope of activities to get started at Refine.

### Your Role

- Support our consultants and board members in all phases of projects, from analysis to the development of new methods within the construction industry.

### Your profile

- You are a candidate of a Bachelor or Master degree or are a graduate in the field of architecture, civil engineering, industrial engineering, mechanical engineering, or process engineering.
- Your English skills are good.
- You are interested in lean construction and you have already experience in this area as well as in project management
- You are motivated to help people improving their processes
- You are open for new topics
- You are creative as well as structured in your work
- Your behaviour is professional and you are willing to travel
- You have strong moderation and presentation skills

### We offer you

- The chance to promote your personal development and thereby, improve us as well as our clients.
- Unique „office space“ in Stuttgart, Germany, and a lot of interaction with other start-ups
- Always the freedom for creativity
- A team spirit that is characterised by openness and motivation
- As one of Refine's first employees, the opportunity to work on Refine's long-term success as part of the extended founding team

If your profile matches this position, we would be very happy to receive your application and offer you the opportunity to shape your and our future and to work in a young team with flexible working hours. Please send your application, including possible starting dates, to [career@refineprojects.com](mailto:career@refineprojects.com) or by post.
